SUCCESSFUL ADVOCACY

- NSAC passed the first pharmaceutical and sharps Extended Producer Responsibility (EPR) bill in the U.S. in CA, with a 39-0 vote off the Senate Floor.
- In 2017, NSAC sponsored and passed a bill to improve the carpet stewardship program in CA, resulting in the siting of the Aquafil nylon 6 recycling plant in the Sacramento area and the creation of 50+ green jobs. In 2019, NSAC sponsored and passed another bill to ensure the stewardship fee money, the collectors, and the recyclers are protected.
- In 2019, NSAC sponsored and passed a bill to remove the barriers to local governments household hazardous waste reuse programs.
- During the 2020 legislative session, NSAC is sponsoring SB 424 to ban the sale of single-use tobacco products, and require take-back of rechargeable e-cigarettes, funded by the producers.
- Assisted local governments pass ordinances requiring producers to fund and operate take-back programs for their products.

WHO IS NSAC:

The National Stewardship Action Council (NSAC) is a network of committed proponents comprised of governments, non-government organizations, businesses, and consumers who advocate that producers fairly share responsibility in a circular economy.

ABOUT NSAC:

NSAC supports Extended Producer Responsibility (EPR) to conserve resources, reduce costs to local governments, create jobs in remanufacturing, and provide a circular economy. NSAC's goal is to align public and private sectors through information and partnerships to implement and ensure sustainable recovery systems where producers have an appropriate level of sharing in the responsibility for those systems.
